MATHEMATICA PANNONICA

24 (2013)

CONTENTS

- ABDOLLAHPOUR, M. R. and NAJATI, A.: On approximate Euler differential equations of third order 243–252
- BHAYO, B. A. and YIN, L.: On the conjecture of generalized trigonometric and hyperbolic functions 261–268
- BRUNOTTE, H.: Unusual CNS polynomials 125–137
- CARPINTERO, C., RAJESH, N. and ROSAS, E.: New separation axioms in m -spaces 109–124
- CRNKOVIĆ, D. and DUMIČIĆ DANILOVIĆ, D.: Finding unitals in symmetric designs using modified genetic algorithm 183–196
- DERKA, M., PYRIH, P. and VEJNAR, B.: Killing an end point with an open mapping revisited 45– 53
- EVERS, K. and LESEBERG, D.: Erratum to “A new concept of convergence space” [Mathematica Pannonica 19/2 (2008), 291–303] 139–140
- FARLEY, J. D.: A problem attributed to Rado from Mirsky’s 1971 Monograph *Transversal Theory* and a Conjecture from the 1982 *Proceedings of the American Mathematical Society* 3– 14
- FARLEY, J. D.: Distributive lattices of small width, I. A question of Rosenberg from the 1981 Banff Conference on Ordered Sets 231–242
- KE, W.-F. and LAI, K.-F.: Ferrero categories 303–316
- LÓCSI, L.: An inverse problem with compositions of Blaschke products 141–156

CONTENTS

PILZ, G.: Obituary for Prof. Hans Sachs	165
PILZ, G.: THANK YOU!	166
VOLENEC, V., KOLAR-BEGOVIĆ, Z. and KOLAR-ŠUPER, R.: Crelle–Brocard points of the triangle in an isotropic plane	167
CRNKOVIĆ, D. and DUMIČIĆ DANILOVIĆ, D.: Finding unitals in symmetric designs using modified genetic algorithm	183
MOHEDDINE, I.: The concept of orthogonality in Cartan’s geom- etry based on the notion of area	197
WENZEL, W.: On Zariski topologies and algebraic combinatorics	211
MENDES, D. I. C.: A note on strongly f -regular rings	221
FARLEY, J. D.: Distributive lattices of small width, I. A question of Rosenberg from the 1981 Banff Conference on Ordered Sets	231
ABDOLLAHPOUR, M. R. and NAJATI, A.: On approximate Euler differential equations of third order	243
POGÁNY, T. K. and RATHIE, A. K.: Reduction of Srivastava– Daoust S function of two variables	253
BHAYO, B. A. and YIN, L.: On the conjecture of generalized trigonometric and hyperbolic functions	261
WENDT, G.: 1-primitive near-rings	269
SRIVASTAVA, H. M.: Series identities and associated hypergeo- metric transformation and reduction formulas	289
KE, W.-F. and LAI, K.-F.: Ferrero categories	303
Mathematica Pannonica Vol. 24 (2013). Contents	317
